

How to Order Prints

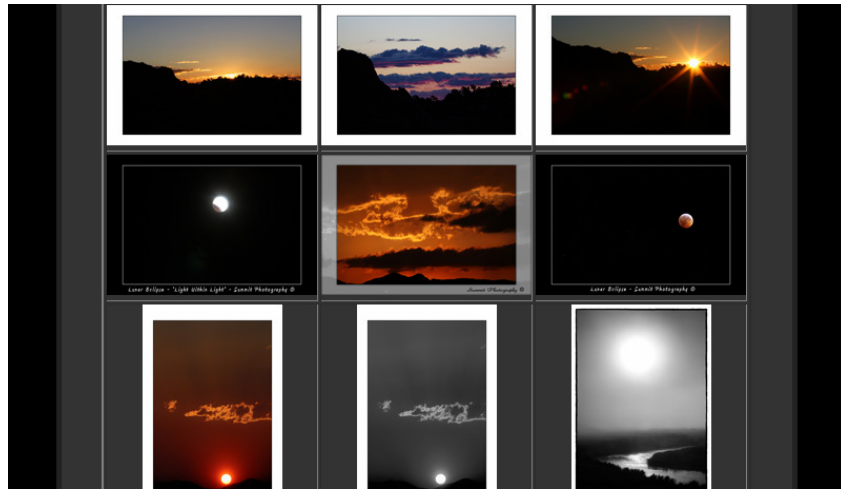

1. Navigate to the homepage, select the category you are interested in and view the galleries. For this demonstration, we will go to landscape.

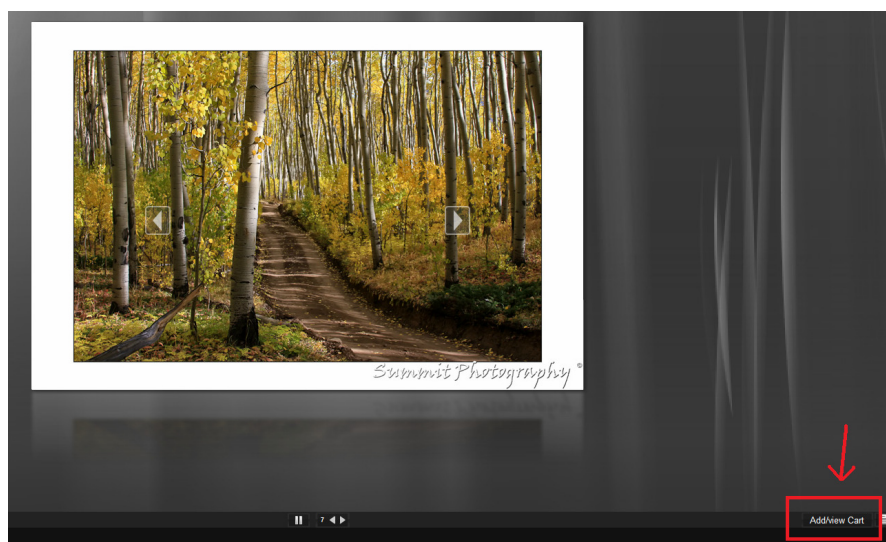

2. Some galleries have subcategories. In such case, navigate and view the thumbnails.

3. From the thumbnails, simply click on the image you enjoy and would like to purchase.

4. A flash gallery now opens. You can view a larger view of the image to music and see the camera details of the image taken. In addition, you can view prices and add this to a shopping cart. Since it is flash, **you DO NOT navigate from the page**. In addition, by simply clicking the "Add/View Cart" button shown below with the red box **you can VIEW prices without adding anything to a cart**. You can see the print sizes, options, and details right from the flyout window shown below on the next step.

5. This is the flyout window that opens. It displays the file name, the options you have, sizes and prices. Simply select a size and see the price dynamically change. You can also chose options such as black & white, sepia, or simply add notes. If you are just checking prices, this is a great option to use. If you decide to purchase, simply select the size you'd like and chose the "Add to Cart" button.
